

13. Escape & Panic Hardware Flexibility & Choice

Universal Hardware Direct UK Ltd offers a complete line of escape and panic devices meeting a full range of hardware requirements found in such places as hospitals, care homes, universities, offices, hotels and commercial buildings.

What Application?

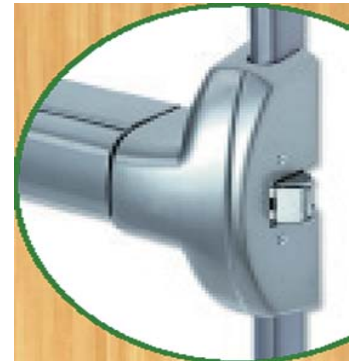

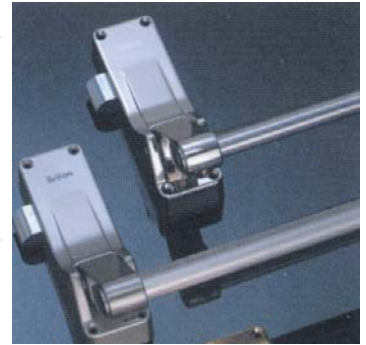

Every new build or replacement panic and emergency exit application is required to comply with European safety legislation and European standards BS EN 1125 and BS EN 179

Panic Application - BS EN 1125

A panic application is where the exit door is used by the public and provides “safe and effective escape through the door way with minimum effort and without prior knowledge of operation” such as theatres, shops, schools, hospitals, cinemas.

Emergency Application - BS EN 179

An emergency application is where the exit door is **used by trained personnel, not the general public, in a low occupancy environment** and where panic situations are not foreseen. For example, offices, private flats and apartments, store rooms.
